

# THANK YOU

YOUR NEW KIDDUSH CUP IS MADE FROM  
THREE RECYCLED SINGLE-USE WATER BOTTLES

We envision a Jewish community  
committed to the protection and  
preservation of the Marine Environment.

Every year, approximately 8 million  
metric tons of plastics enter our ocean.  
This Kiddush Cup, made in-house by  
Tikkun HaYam, keeps three plastic  
bottles from polluting the environment.

Make a statement to your community  
and show your care for the Ocean and  
the environment every Shabbat.

We envision a world where the ocean is  
clean, marine life is abundant and safe,  
and the sanctity of the Sea is appreciated  
and protected.
