

Welcome! We're Glad You're Here.

Let's build something impactful—together.

MISSION STATEMENT

To share the spiritual wonders of water and the Sea from a Jewish perspective, promote interfaith harmony and cooperation, and raise awareness and encourage action to address the many threats facing the aquatic environment.

After the Event

Once the Opportunity ends, Team Leaders will need to go into their Golden Dashboard and upload the debris collected by their volunteers to their "impact data" (a.k.a. footprints), such as:

- Number of bottles collected
- Number of plastic bags
- Number of food wrappers
- Etc.

This data helps everyone measure and celebrate collective progress.

Before starting the cleanup, choose one person from your group (such as a team leader or volunteer) to upload your debris data to your Golden account.

Deciding this in advance helps ensure a smooth process.
