

Welcome! We're Glad You're Here.

Let's build something impactful—**together.**

MISSION STATEMENT

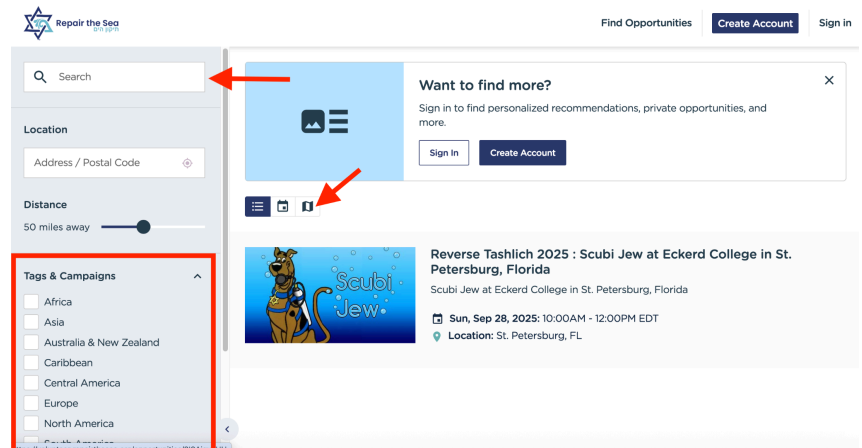

To share the spiritual wonders of water and the Sea from a Jewish perspective, promote interfaith harmony and cooperation, and raise awareness and encourage action to address the many threats facing the aquatic environment.

Before the Event

Step 1: Go to volunteer.repairthesea.org and find your community.

Your community will only appear after your team leader has signed up for the Reverse Tashlich on Repair the Sea website, then create a Golden template.

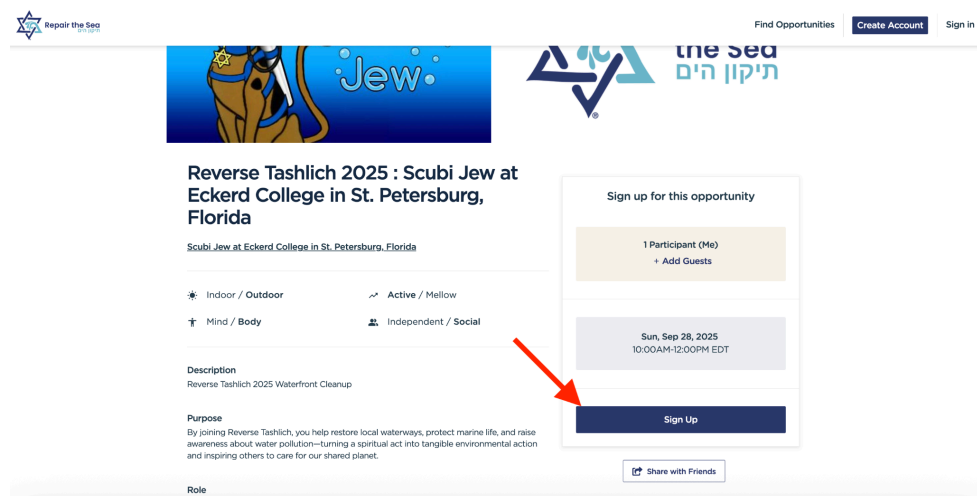

There are a few ways of searching for your community. Either the search bar, the map feature, or by tags.

Step 2: Sign Up

Once you've located your community, click on it, and click the Sign Up button.

Follow the prompts, then submit.

During the Event

Don't Forget to Log Your Debris

During your Reverse Tashlich, don't forget to log your debris. Paper copies can be found on the Repair the Sea [Resources page](#), or [HERE](#).

Choose one person from your group—such as a team leader or designated volunteer—to be responsible for uploading your debris data to your Golden account.

REVERSE TASHLICH DATA

VOLUNTEER SHEET

[illegible]

INSTRUCTIONS

- Before starting the cleanup, choose one person from your group (such as a team leader or volunteer) to [upload your debris data to your Golden account \(dashboard.goldenvolunteer.com\)](https://dashboard.goldenvolunteer.com). Deciding this in advance helps ensure a smooth process.

	COMMON & PRIORITY ITEMS	TOTAL
	Cigarette	74
	Butts	
	Plastic Bottles	16
	Plastic Bags shopping / grocery	3
	Plastic Straws	8

- 2 As you collect items, make tally marks in the space provided next to each item.
- If you find many of the same item, it's okay to tally around the name or elsewhere on the sheet—just be sure it's clear which item each tally corresponds to.
- 3 Once you've finished collecting, count the tally marks for each item and enter the final number in the **TOTAL** column. Do **not** write anything other than the number—please avoid using symbols (like "+" or "-"), ranges, or phrases like "too many."

HAVE FUN!

After the Event

Choose one person from your group—such as a team leader or designated volunteer—to be responsible for uploading your debris data to your Golden account.

Volunteers should hand their completed data sheets to this designated person. That person will then log into the Golden Dashboard and enter the collected debris data under the “Impact Data” (also known as “Footprints”):

- Number of bottles collected
- Number of plastic bags
- Number of food wrappers
- Etc.

This data helps everyone measure and celebrate collective progress.

STEP 1: Go to your past event and click into it
